

# Subscribe to Local Food

How to get the freshest food  
& support your local farmers!

**GEORGIA  
ORGANICS**  
GOOD FOOD FOR ALL

Community Supported Agriculture (CSA) was first developed for people who wanted to invest in a share of a local farm's harvest, and later receive a weekly bounty of the farm's harvest. CSA programs help farmers a lot because the pre-orders provide capital for their planting needs and allow them to more accurately know how much to plant. We've also listed a few box programs that pull together produce from many different growers and combine them in a weekly delivery, providing a wide variety of products.

How to join a CSA:

1. Look at the list below to find a pickup location close to your home or work.
2. Research the CSAs you are interested in by visiting their website or contacting the farmers/distributors directly.

*Helpful questions to ask:*

- *What is the time frame of this subscription...Seasonal? Week by week?*
  - *What sorts of produce should I expect each week?*
  - *Are there still subscriptions available?*
3. Join the CSA which works best for you by speaking with the farmer directly and making sure shares are still available for the season.

If you have any questions, feel free to call our Farmer Services Coordinator, Jonathan Tescher, at 678-702-0400 or e-mail him at [jonathan@georgiaorganics.org](mailto:jonathan@georgiaorganics.org).
